WHY IT MATTERS

A canonical signals consolidation, which should agree with the intended public URL.

RECOMMENDED ACTION

Confirm that consolidation to the target page is intended.

PRIORITY RATIONALE

Based on observed access/content impact; review business importance before scheduling. Informational signals are not automatically defects.

ACCEPTANCE CHECK

Fetch the declared canonical and this URL; check redirects, status and consistent self-canonical declarations on the preferred page.

UNCERTAINTY & COVERAGE

Observation applies to captured representations; rankings, indexing and AI citations were not measured.; The crawl did not establish complete website coverage.; Business profile not yet reviewed; business-specific impact needs interpretation.
